

REMARKS

Claim 1 has been amended herein. Claims 8 and 65-68 have been canceled. Further to Applicants' reservation of their right to re-introduce method claims of suitable scope upon the indication of an allowable generic claim to a composition of matter, previously canceled Claims 39-42, 44-47, and 54-56 have been reintroduced as Claims 73-83. Claims 73-78 explicitly incorporate the complex of Claim 1 as amended herein.

Claims 1-3 and 73-83 remain in the case. Favorable reconsideration is respectfully requested.

Applicants thank Examiner Lucas for noting that the elected invention appears to be allowable. Claim 1 has been amended to recite only the elected species, and is therefore submitted to be allowable outright. Likewise, all of the remaining claims depend, either directly or indirectly from Claim 1, and are therefore submitted as also being allowable.

The following remarks address the remaining issues presented in the Office Action in the order of their appearance.
